

The Partner Programme

We've created an easy first step to find help...

First, receive expert help with the exact challenges you're facing through onboarding calls and optional evaluation tools relevant to your challenges.

Then you and your team access a follow-up programme of unique, exclusive events that – are both online and face-to-face meaning everyone can access help as required.

Each 1-day event addresses a theme, that's specifically relevant to people wanting to improve how projects, programmes and change are delivered.

Every participant takes away practical insight to help them in their work.

You and your team will also have the opportunity to work with other teams from leading organisations across Europe in round table settings, as part of the experience.

teams are better than individuals and diverse teams are best ...

... access insight from leaders and teams across Europe.

**But –
that's
not all.**

You also have access to support calls in-between events, accessed every month, ...

... so you always receive continuing support when you need it.

All this taken together means you'll make real delivery improvements and hit your targets.

Comparator:

We're looking to create great value for you.

As a comparator we know it costs more than £1,000 to attend 2-day events for project professionals (in Europe, North America and Asia).

To send 3 people to those events would then cost you more than £3000.

£3000 for a 2 day experience for just 3 people.

This Programme helps YOU and your WHOLE TEAM for a WHOLE YEAR, for less.

Those events offer great insight but here you get so much more.

Plus there's a ... **Guarantee**

In addition ... there's also a guarantee.

Guarantee:

If you follow the programme and don't generate more than your participation fee in benefits or savings - we'll give you your money back.

However, the reality is - you'll find x10 the value of your participation fee.
